

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

HARVARD UNIVERSITY
GRADUATE SCHOOL OF EDUCATION
MONROE C. GUTMAN LIBRARY

This short title Catalogue of Friends' Historical Library has been prepared with the view of informing Friends as to the works already on our shelves, and of interesting them in its future growth and maintenance.

The places and dates of publication are given to indicate the editions in our possession.

Besides the books herein enumerated, there are many unbound pamphlets and volumes of periodicals, an extensive collection of photographs of representative Friends, a number of deeds and other documents of historical interest and value, the portrait of George Fox by Sir Peter Lely, and other objects of similar interest to Friends. The collection is securely housed in a fireproof apartment, furnished by the generosity of the late Anson Lapham, of Skaneateles, N. Y.

The books are completely catalogued, and an index of the principal subjects of which they treat is in preparation.

It is hoped that, through the generous assistance of Friends, this Library may become a centre of historical information for all matters relating to, or concerning, the Society of Friends.

The general library of Swarthmore College contains duplicates of many of the volumes here catalogued, which are loaned to borrowers under the usual library regulations.

The books in this Library are not permitted to be taken from the Library Room, but they may be freely consulted there on application to the Curator and Librarian.

A. B.

Swarthmore College, Fifth Mo., 1893.

SWARTHMORE COLLEGE,

An institution for the higher education of young men and young women, under the guarded care of members of the Religious Society of Friends, has been in successful operation since 1869.

During this period there have been under its instruction and care more than 1,500 young men and nearly 1,200 young women, of whom 170 young men and 150 young women have completed full courses of study and have received its degrees.

The increase in the appliances and facilities for advanced study has kept pace with the requirements of the times, and with the accumulated experience of its Managers and Faculty. It offers to Friends and others an opportunity for the higher education of their children, fully equal to that of our older colleges, and free from the temptations and excesses to which the young are so often exposed.

Catalogues and full information may be obtained by addressing the

PRESIDENT OF SWARTHMORE COLLEGE,
SWARTHMORE, PA.
